OASIS®

Deliver the Safest Drinking Water Possible with Advanced Water Disinfection

Advanced UV-C LED Protection:

- For maximum protection, OASIS' exclusive QUASAR, UV-C LED technology disinfects water at the point of dispense on bottle fillers, **reducing 99.9% of harmful microorganisms, including Legionella, Cryptosporidium, Pseudomonas Aeruginosa, T-1 Virus, and Giardia.**
- Mercury-free UV-C LED does not heat the water and requires no hazardous disposal, making it safer for both users and the environment.
- OASIS UV-C LED technology lasts up to 10 years—dramatically reducing maintenance frequency and costs. QUASAR UV-C LEDs provide a low-maintenance, cost-effective solution designed for long-term reliability.
- Available with NSF/ANSI Certified filtration to reduce lead, cysts, chlorine, taste, odor, and microplastics. The filter is located up top in the bottle filler, which features Tilt 'N Tether for fast, easy filter changes.
- All QUASAR models meet ADA, ANSI A117.1, UL 399, CAN/CSA C22.2 No.120 , NSF/ANSI Standard 61-G & 372 for accessibility and drinking water safety.

115+ Years of Innovation

Invest in the safest, cleanest, and most sustainable hydration experience available today. Whether you're retrofitting existing units or specifying new projects, OASIS brings you the confidence of industry-leading innovation with measurable results.
